# Earnings Conference Call

Q3 2022

## Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve numerous risks and uncertainties. Actual results may differ from the Company's beliefs, expectations, estimates, and projections and, consequently, you should not rely on these forward-looking statements as predictions of future events. Forward-looking statements are not historical in nature and can be identified by words such as "believe," "expect," "anticipate," "estimate," "project," "plan," "continue," "intend," "should," "would," "could," "goal," "objective," "will," "may," "seek," or similar expressions or their negative forms, or by references to strategy, plans, or intentions.

The Company's results can fluctuate from month to month and from quarter to quarter depending on a variety of factors, some of which are beyond the Company's control and/or are difficult to predict, including, without limitation, changes in interest rates and the market value of the Company's securities, changes in mortgage default rates and prepayment rates, the Company's ability to borrow to finance its assets, changes in government regulations affecting the Company's business, the Company's ability to maintain its exclusion from registration under the Investment Company Act of 1940 and other changes in market conditions and economic trends including changes resulting from the ongoing spread and economic effects of the novel coronavirus (COVID-19) pandemic and associated responses to the pandemic. Furthermore, forward-looking statements are subject to risks and uncertainties, including, among other things, those described under Item 1A of our Annual Report on Form 10-K, which can be accessed through the link to our SEC filings under "For Our Shareholders" on our website ([www.earnreit.com](http://www.earnreit.com)) or at the SEC's website ([www.sec.gov](http://www.sec.gov)). Other risks, uncertainties, and factors that could cause actual results to differ materially from those projected may be described from time to time in reports we file with the SEC, including reports on Forms 10-Q, 10-K and 8-K. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

## Modeling

Some statements in this presentation may be derived from proprietary models developed by Ellington Management Group, L.L.C. ("Ellington"). Some examples provided may be based upon the hypothetical performance of such models. Models, however, are inherently imperfect and subject to a number of risks, including that the underlying data used by the models is incorrect, inaccurate, or incomplete, or that the models rely upon assumptions that may prove to be incorrect. The utility of model-based information is highly limited. The information is designed to illustrate Ellington's current view and expectations and is based on a number of assumptions and limitations, including those specified herein. Certain models make use of discretionary settings or parameters which can have a material effect on the output of the model. Ellington exercises discretion as to which settings or parameters to use in different situations, including using different settings or parameters to model different securities. Actual results and events may differ materially from those described by such models.

## Projected Yields and Spreads

Projected yields and spreads discussed herein are based upon Ellington models and rely on a number of assumptions, including as to prepayment, default and interest rates and changes in home prices. Such models are inherently imperfect and there is no assurance that any particular investment will perform as predicted by the models, or that any such investment will be profitable. Projected yields are presented for the purposes of (i) providing insight into the strategy's objectives, (ii) detailing anticipated risk and reward characteristics in order to facilitate comparisons with other investments, (iii) illustrating Ellington's current views and expectations, and (iv) aiding future evaluations of performance. They are not a guarantee of future performance. They are based upon assumptions regarding current and future events and conditions, which may not prove to be accurate. There can be no assurance that the projected yields will be achieved. Investments involve risk of loss.

## Financial Information

All financial information included in this presentation is as of September 30, 2022 unless otherwise indicated. We undertake no duty or obligation to update this presentation to reflect subsequent events or developments.

<b>Total mortgage-backed securities</b>		<b>\$ 934,668</b>		<b>\$ 1,035,830</b>			<b>\$ 947,647</b>		<b>\$ 1,020,964</b>	

- Agency RMBS decreased slightly to \$909.4 million as of September 30<sup>th</sup>, as compared to \$922.0 million as of June 30<sup>th</sup>, 2022
  - Agency RMBS portfolio turnover was 19% for the quarter
- Non-Agency RMBS and interest-only securities decreased modestly

Short \$601.5MM 10-yr equivalents<sup>(1)</sup>  
As of 9/30/2022

- A: 2-to-5 Yr Treasuries and Treasury Futures
- B: 2-to-5 Yr Interest Rate Swaps
- C: >5 Yr Interest Rate Swaps
- D: <2 Yr Interest Rate Swaps
- E: TBAs

Short \$546.5MM 10-yr equivalents<sup>(1)</sup>  
As of 6/30/2022

We hedge along the entire yield curve to manage interest rate risk and protect book value

Shorting “generic” pools (or TBAs) allows EARN to significantly reduce interest rate risk and basis risk in its Agency portfolio

At September 30<sup>th</sup> we had a net short TBA position, both on a notional basis and as measured by 10-yr equivalents

We also hedge interest rate risk with swaps, U.S. Treasury securities, futures, and swaptions

## Net RMBS Exposure Based on Fair Value<sup>(1)</sup>

As of 9/30/2022

As of 6/30/2022

- EARN often carries significantly lower net effective mortgage exposure than our “headline” leverage suggests, due to our net short TBA position
- Our net mortgage assets-to-equity<sup>(2)</sup> ratio increased quarter over quarter, primarily due to lower shareholders’ equity, partially offset by a larger net short TBA position and marginally lower Agency RMBS holdings

- Use of TBA short positions as hedges helps drive outperformance in especially volatile quarters, such as the first and second quarters of 2020.
- When interest rates spike, TBA short positions not only extend with specified pool assets, but they tend to extend more than specified pool assets, which dynamically and automatically hedges a correspondingly larger portion of our specified pool portfolio

Ellington is committed to corporate social responsibility. We recognize the importance of environmental, social and governance (“ESG”) factors, and believe that the implementation of ESG policies will benefit our employees, support long-term stockholder performance, and make a positive impact on the environment and society as a whole. Our Manager has a standing ESG Committee to address a variety of issues, including its impact on the environment, increasing the diversity of its workforce, employee engagement, and community involvement.

## Environmental

- Our offices are conveniently located near mass transportation.
- We provide financial support and incentives to our employees who use public transit.
- To reduce energy usage, we use Energy Star® certified desktops, monitors and printers; and utilize motion sensor lighting and cooling to reduce energy usage in non-peak hours.
- To reduce waste and promote a cleaner environment, we use green cleaning supplies and kitchen products; recycle electronics, ink cartridges, and packaging; provide recycling containers to employees; and use water coolers to reduce waste.
- We have reduced the number of single use cups and plastic water bottles in our offices.

## Social

- We invest in home mortgage loans, which support homeownership and stability within communities.
- Ellington and senior members of management sponsor numerous charitable causes, including several devoted to diversity and children in need. We also support employee charitable contributions through matching gift programs, hosting food drives, and other community events.
- Our employees have access to robust health and wellness programs. Ellington also supports various events that support health and wellness.
- We provide opportunities for personal growth with training, including facilitating a lunch & learn series, and reimbursing professional continuing education. We also support professional development through mentorship programs and affinity groups, such as a women’s networking group.
- We are committed to enhancing gender, racial, and ethnic diversity throughout our organization, as stated in our Manager’s Diversity and Inclusion Policy. We have engaged a women-owned recruiting firm focused exclusively on women and minority recruiting on college campuses.
- We are in compliance with applicable employment codes and guidelines, including ADA, Equal Opportunity Employment, Non-Discrimination, Anti-Harassment and Non-Retaliation codes.

## Governance

- Our Manager has a Responsible Investment policy incorporating ESG factors into its investment processes for applicable strategies.
- We operate under a Code of Business Conduct and Ethics.
- EARN has a separate independent Chairman, and the majority of Board members are independent.
- We hold annual elections of Trustees.
- We are committed to significant disclosure and transparency, including an established quarterly book value disclosure and monthly dividend policy.
- We have an established Whistleblower policy to encourage transparency and accountability.
- Robust process for shareholder engagement.

- 1 Capitalize on investment opportunities driven by market volatility and uncertainty, including around hiking cycle and quantitative tightening
- 2 Expect to rotate portion of capital to non-Agency RMBS to take advantage of relative value opportunities
- 3 Dial up and down our MBS exposure opportunistically in response to market conditions
- 4 Rotate portfolio to take advantage of relative value discrepancies between Agency RMBS, and capitalize on higher asset yields, in order to drive Net Interest Margin and Adjusted Distributable Earnings
- 5 Changes in the prepayment landscape should favor our core strengths of prepayment modeling, asset selection, and dynamic interest rate hedging, while also providing meaningful trading opportunities
- 6 Rely on disciplined interest rate hedging and liquidity management to manage future volatility and protect book value

research and  
information  
technology

## Ellington and its Affiliated Management Companies

- Our external manager Ellington Residential Mortgage Management LLC is part of the Ellington family of SEC-registered investment advisors<sup>(3)</sup>.
- Ellington Management Group and its affiliates manage Ellington Residential Mortgage REIT (EARN), Ellington Financial Inc. (EFC), multi-investor hedge funds, separately managed accounts, and opportunistic private funds
- Time-tested infrastructure and proprietary resources in trading, research, risk management, and operational support

## Industry-Leading Research & Trading Expertise

- Sophisticated proprietary models for prepayment and credit analysis
- Approximately 25% of employees dedicated to research and information technology
- Structured credit trading experience and analytical skills developed since the firm's founding 27 years ago
- Ellington's portfolio managers are among the most experienced in the MBS sector

## Slide 3 – Third Quarter Market Update

- (1) Source: Bloomberg
- (2) Source: Mortgage Bankers Association via Bloomberg
- (3) Source: J.P. Morgan Markets
- (4) LIBOR-based Option Adjusted Spread measures the additional yield spread over LIBOR that an asset provides at its current market price after taking into account any interest rate options embedded in the asset.
- (5) LIBOR-based Zero-volatility spread (Z-spread) measures the additional yield spread over LIBOR that the projected cash flows of an asset provide at the current market price of the asset.

## Slide 4 – Third Quarter Highlights

- (1) Economic return is based on book value per share.
- (2) Adjusted Distributable is a non-GAAP financial measure. See slide 22, endnote 1 for an explanation regarding the renaming and calculation of Adjusted Distributable Earnings, and the definition of the Catch-up Premium Amortization Adjustment.
- (3) Net interest margin excludes the effect of the Catch-up Premium Amortization Adjustment.
- (4) As of September 30, 2022.
- (5) Excludes recent purchases of fixed rate Agency specified pools with no prepayment history.
- (6) We define our net mortgage assets-to-equity ratio as the net aggregate market value of our mortgage-backed securities (including the underlying market values of our long and short TBA positions) divided by total shareholders' equity. As of September 30, 2022 the market value of our mortgage-backed securities and our net short TBA position was \$934.7 million and \$(161.3) million, respectively, and total shareholders' equity was \$103.0 million.

## Slide 5 – Summary of Financial Results

- (1) Total Other Gain (Loss) represents net realized and unrealized gains (losses) on periodic settlements of interest rate swaps.
- (2) See slide 22, endnote 1 for definition of Catch-up Premium Amortization Adjustment.
- (3) Adjusted Distributable Earnings is a non-GAAP financial measure. See slide 22 for a reconciliation of Adjusted Distributable Earnings to Net Income (Loss).
- (4) Book Value per share is calculated using shares outstanding at the end of the period. All other per share amounts are calculated using the weighted average shares outstanding for the quarter.
- (5) Weighted Average Yield excludes the effect of the Catch-up Premium Amortization Adjustment.
- (6) Net interest margin excludes the effect of the Catch-up Premium Amortization Adjustment.

## Slide 7 – Portfolio Summary

- (1) Represents the dollar amount (not shown in thousands) per \$100 of current principal of the price or cost for the security.
- (2) Excludes IOs.

## Slide 8 – Interest Rate Hedging Portfolio

- (1) “10-year equivalents” for a group of positions represent the amount of 10-year U.S. Treasury securities that would be expected to experience a similar change in market value under a standard parallel move in interest rates.

## Slide 9 - Dynamic Hedging Strategy

- (1) Net short TBA positions represents the current market value of the underlying Agency RMBS (on a forward delivery basis) as of September 30, 2022 and June 30, 2022. The net carrying value of the TBA positions as of September 30, 2022 and June 30, 2022 on the Consolidated Balance Sheet was \$4.3 million and \$(1.5) million, respectively.
- (2) We define our net mortgage assets-to-equity ratio as the net aggregate market value of our mortgage-backed securities (including the underlying market values of our long and short TBA positions) divided by total shareholders' equity.

## Slide 10 - Relative Yield Spreads

- (1) All spreads as of September 30, 2022 with exceptions as set forth below:
  - 8/5/2022 for Legacy Resi;
  - 9/26/2022 for US CLO 2.0 AAA
  - 9/28/2022 for Non-QM AAA

## Slide 14 - Agency Portfolio Summary

- (1) Does not include long TBA positions with a notional value of \$20.7 million and a market value of \$19.9 million as of September 30, 2022. Does not include long TBA positions with a notional value of \$53.0 million and a market value of \$51.9 million as of June 30, 2022.
- (2) Fair value shown in millions.
- (3) Represents weighted average net pass-through rate.

## Slide 15 - CPR Breakout of Agency Fixed Long Portfolio

- (1) Does not include long TBA positions, reverse mortgage pools, or fixed rate IOs. Fair values reflect the average of fair values at the beginning of each month during the quarter.
- (2) Classification methodology may change over time as market practices change.
- (3) Fair value shown in millions.
- (4) "MHA" indicates those pools where underlying borrowers have participated in the Making Homes Affordable program.
- (5) Excludes recent purchases of fixed rate Agency pools with no prepayment history.

## Slide 16 - Non-Agency Portfolio as of September 30, 2022

- (1) Excludes IOs

## Slide 17 - Repo Borrowings

- (1) As of September 30, 2022 and June 30, 2022, the Company had no outstanding borrowings other than under repurchase agreements.

### Slide 18 – Interest Rate Sensitivity Analysis

- (1) Based on the market environment as of September 30, 2022. Results are based on forward-looking models, which are inherently imperfect, and incorporate various simplifying assumptions. Therefore, the table above is for illustrative purposes only and actual changes in interest rates would likely cause changes in the actual value of our portfolio that would differ from those presented above, and such differences might be significant and adverse.

### Slide 19 – Financial Derivatives as of September 30, 2022

- (1) Notional amount represents the principal balance of the underlying Agency RMBS.
- (2) Cost basis represents the forward price to be paid for the underlying Agency RMBS.
- (3) Market value represents the current market value of the underlying Agency RMBS (on a forward delivery basis) as of September 30, 2022.
- (4) Net carrying value represents the difference between the market value of the TBA contract as of September 30, 2022 and the cost basis, and is included in Financial derivatives-assets, at fair value and Financial derivatives-liabilities, at fair value on the Consolidated Balance Sheet.

### Slide 22 – Reconciliation of Adjusted Distributable Earnings to Net Income (Loss)

- (1) We calculate Adjusted Distributable Earnings as net income (loss), excluding realized and change in net unrealized gains and (losses) on securities and financial derivatives, and excluding other income or loss items that are of a non-recurring nature. Adjusted Distributable Earnings also excludes the effect of the Catch-up Premium Amortization Adjustment on interest income. The Catch-up Premium Amortization Adjustment is a quarterly adjustment to premium amortization triggered by changes in actual and projected prepayments on the Company's Agency RMBS (accompanied by a corresponding offsetting adjustment to realized and unrealized gains and losses). The adjustment is calculated as of the beginning of each quarter based on our then-current assumptions about cashflows and prepayments, and can vary significantly from quarter to quarter. Adjusted Distributable Earnings includes net realized and change in net unrealized gains (losses) associated with periodic settlements on interest rate swaps. Adjusted Distributable Earnings is a supplemental non-GAAP financial measure. We believe that the presentation of Adjusted Distributable Earnings provides information useful to investors, because: (i) We believe that it is a useful indicator of both current and projected long-term financial performance, in that it excludes the impact of certain current period earnings components that we believe are less useful in forecasting long-term performance and dividend paying ability; (ii) we use it to evaluate the effective net yield provided by its portfolio, after the effects of financial leverage; and (iii), we believe that presenting Adjusted Distributable Earnings assists investors in measuring and evaluating its operating performance, and comparing its operating performance to that of our residential mortgage REIT peers. Please note, however, that: (I) our calculation of Adjusted Distributable Earnings may differ from the calculation of similarly titled non-GAAP financial measures by our peers, with the result that these non-GAAP financial measures might not be directly comparable; and (II) Adjusted Distributable Earnings excludes certain items, such as most realized and unrealized gains and losses, that may impact the amount of cash that is actually available for distribution. In addition, because Adjusted Distributable Earnings is an incomplete measure of our financial results and differs from net income (loss) computed in accordance with U.S. GAAP, it should be considered supplementary to, and not as a substitute for, net income (loss) computed in accordance with U.S. GAAP. Furthermore, Adjusted Distributable Earnings is different than REIT taxable income. As a result, the determination of whether we have met the requirement to distribute at least 90% of its annual REIT taxable income (subject to certain adjustments) to its shareholders, in order to maintain qualification as a REIT, is not based on whether we distributed 90% of our Adjusted Distributable Earnings. The table above reconciles, for the three-month periods ended September 30, 2022, and June 30, 2022, Adjusted Distributable Earnings to the line on the Consolidated Statement of Operations entitled Net Income (Loss), which we believe is the most directly comparable GAAP measure.

### Slide 23 – About Ellington Management Group

- (1) \$10.3 billion in assets under management includes approximately \$1.1 billion in Ellington-managed CLOs. For these purposes, the Ellington-managed CLO figure represents the aggregate outstanding balance of CLO notes and market value of CLO equity, excluding any notes and equity held by other Ellington-managed funds and accounts.
- (2) Does not include partners formerly employed by Ellington who may have residual capital balances but who no longer have voting rights in the partnership.
- (3) Registration with the SEC does not imply that the firm or any of its principals or employees possess a particular level of skill or training in the investment advisory or any other business.
